President's Message

The deadline of paying taxes has passed. Time to ease the pain by attending our Student/Membership night. At Arcaro and Gennell at 443 South Main Street, Old Forge. Good food, comradery and the gaining of knowledge about the latest information of our Industry. Students and people involved in the HVAC industry are always welcome to attend our meetings.

The Chapter needs involvement new members and attendees for our continual success. Many thanks to all that contribute their time and donations to the Chapter. Without your commitment the Anthracite Chapter would not be as successful as it is.

I would like to remind everyone about the upcoming Mark Hagan P.E. Memorial Golf Outing at Blue Ridge Golf Course. It will be a good time as always.

We also have the Car Cruise-In coming up. Contact Ron Sibulsky about sponsorships and volunteering to help out.

Thank you

Eric Turner

NEWS and Notes

Car Cruise-In Set for June 22nd

The date is fast approaching for our 2019 ASHRAE Anthracite Chapter Cruise-In, and I'm anticipating this to be our best ever, so mark your calendars for June 22nd. As I think you all know we are joining with the Dallas Rotary Club's "Wine & Brew Fest" this year. There will be over 70 vendors and they have experienced attendance of over 1,200 each year.

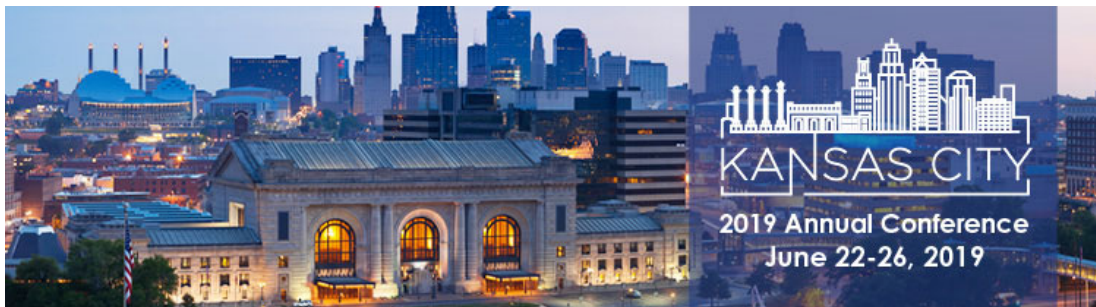

Although this will be a Cruise-In, not requiring any registration, I will still need volunteers to help set up, collect the entry fee, hand out goody bags, assist with parking the cars, sell raffle tickets, and help with the drawing. If you are interested in helping your Chapter please contact me at 610-223-6528 or email at rsibulsky@associatedsteam.com

Also, if you, or anyone you know, would be interested in donating raffle items or goody bag stuffers please get in touch with me. SEE YOU ALL ON THE 22nd !!

ASHRAE Webcast

The 2019 Webcast, The Future of Refrigerants: Unitary and VRF Systems, will be broadcast next week on Wednesday April 17th 7:00 p.m.—9:00 p.m. EDT and Thursday April 18th 11:00 a.m.—1:00 p.m. EDT. This free webcast will examine the world's most prolific air-conditioning system configurations and how those systems will adapt to worldwide regulatory restrictions and corresponding advancements in refrigerant technology. Two professional development hours are available. For full details and to register go to www.ashrae.org/webcast.
